ATTN: LFT Overrun Option Request:

- _____ New Request
_____ Modification of Existing LFT Overrun Request
_____ Termination of Existing LFT Overrun Request

_____ (“Shipper”) hereby requests the LFT Overrun Option on the designated transportation contract(s). Shipper understands that it’s LFT account(s) listed below will be automatically adjusted, to overrun transactions on days when NO LFT service is available. The pipeline will schedule these overrun transactions based on the available capacity at the corresponding receipt and delivery locations.

LFT Contract #

Shipper’s designation of the LFT Overrun Option may be terminated or canceled by Shipper or Transwestern by providing written notice to the other party at least two business days (2) days prior to the Timely Nomination Deadline.

Shipper, by execution of this form, certifies that Shipper has a currently effective LFT transportation contract with Transwestern and has title or contractual right to acquire title to the gas to be scheduled as overrun transactions. The LFT Overrun Option will be performed within the existing parameters of Transwestern’s LFT Rate Schedule.

On behalf of Shipper, the undersigned represents and warrants that the information provided herein is correct to the best of his/her knowledge.
